Rules for Individual Meeting

※ Every student is required to talk with Prof. Duh concerning his/her current
status of research work at least once every other week.

※ The student should present the experimental progress or literature survey in a
written form. Bring any data summarized in Figures or Tables.

The experimental notebook should be brought along with the discussion.

※ Be honest in your data presentation. There is no need to hide the not-so-good
data. This is the time to discuss why the data look not so good. Dare to
discuss from various aspects.

(*希望學生可主動來找老師討論)
